

MTKDE

Multi-jet dry dial water meter for cold water

In use by the million worldwide the MTKD provides a high technical standard and a high-quality workmanship. Precise measurement results are achieved, even with difficult water quality or in difficult installation situations.

The MTKD is equipped with the ZENNER D-register and is available in two versions:

MTKD-M with 8-digit-rollers register and modulator disc for non-reactive scanning for radio (wireless M-bus, LPWAN), M-bus or pulse. MTKD-N with 7- or 8-digit rollers for different pulse values and retrofittable with mechanic pulser.

MTKD-N

MTKD-M

Performance characteristics

- High-quality UV-resistant plastic inspection window
- Dry dial register with shielded magnetic coupling
- Operating pressure PN 16
- Available with flood-proof (IP68 hermetically sealed glass/copper register)
- Approved in accordance with MID

Applications

- For the consumption measuring of cold potable water up to 50° C
- Water meter for horizontal and vertical installation

AMR options

- MTKD-N with pulse output (reed) for remote readout
- Standard pulse value 10 l/pulse, optional 1 l/pulse available
- MTKD-M serially equipped with communication interface for:
 - Electronic pulser
 - Wired M-bus
 - Radio via wireless M-bus
 - Radio via LPWAN (LoRaWAN™, SIGFOX)
